(They would be disposable)

## **CATERING OPTIONS WE CAN PROVIDE:**

### **FULL SERVICE**

(Usually Weddings, but Happy to cater smaller events as well)

We would require a table or two depending on the size of Event to be onsite. We would then come early to set up the buffet line with our black table cloths. Have all stainless steel warm and cold chaffing pans, that keep food hot or cold during the duration of the meal. We as well watch over the buffet line and refill the pans as needed. When the meal is done we would clean up the line as well as package up any extras for you.

*We are at the event for the duration of the meal, as well as pre set up and after for clean up.*

### **DROP OFF CATERING**

We would come with everything hot and cold ready to serve. We would then require a table or two depending on the size of party for us to set up the "leave behind" chaffing pans for hot and cold foods. *(These chaffing pans are the wire ones that will hold two burners under it. They are yours to keep after the party.)*

After all the food is set up, we would then leave and let you enjoy your event with your guests.

### **PICK UP HOT & READY**

Option where we could have all the food Hot and Ready the day of your event.

This food would come in tin pans with covers for easy transport.

### **PICK UP CHILLED**

Option where we could have all the food ready and chilled before the day of your event.

This food would come with all the directions for reheating on day of event.

*(Some of the options on the menu would not be possible with this service)*
